Subject: Red and Bonita Mine - 2013 Entry Work and Access to Hennis and Contractor

::
,,

Hello David,

Thank you for your cooperation on the recent access issues for the Red and Bonita. I just wanted to let you know that all went well and the access for Mr. Hennis. A report will be developed regarding the work that EPA and the State performed, which I will share with you when it is final. Mr. Hennis and his geologist consultant collected mineral/ore specimens for analysis and this is not part of our effort.

Please let me know if you have questions. Work will continue next year at a minimum to restore aspects of the site that we had to leave this season.

Sincerely,

Steve
